

I AM (RE)ESTABLISHING MY VINEYARD

Excellent versatility of application.

The FORALEX FLEXI features a durable design that ensures longevity. Its lightweight and compact dimensions provide numerous mounting possibilities. The extensive 180° left/right movement facilitates work on two rows, while its welded steel beam enables precise straight and vertical drilling up to 700 mm.

### FEATURES

- Left or right orientation with a 180° rotation
- Vertical stroke exceeding 700 mm
- Double-acting cylinder for elevating/lowering
- 40 l/min gear motor
- Head diameter 400 mm
- Head featuring clamps and detachable moldboards
- Wire manipulator
- Welded steel girder

### BENEFITS

- Decreased dimensions and mass
- Work on two rows
- Orientation free from obstructions and devoid of dead spots
- Standard geared motor
- Robustness
- Mounting: tracked, straddle

### OPTIONS

- Electro-hydraulic regulation
- Unique rock formation
- Screw-type mooring line driver / drilling bits

### HYDRAULIC REQUIREMENTS

- Engine flow rate: 40 liters per minute
- Flow rate:  $2 \times 10^{-15}$  l/min

Width 1.5 m

185 kg

40 l/min – 180 bar
